# TESTIMONIALS

“Due to the teachings of EOA, I have become a significantly better leader. The past 2 years my management chain has noted it in my evaluations. Aside from that, **the stress levels of my team have reduced**, helping peers has become easier, and **ownership is now the driver me and my team.**”

– **Stephen Clark**

“It has allowed me to become a more patient and kinder leader. It has made me take a step back and check my ego. This has allowed me to pass this onto my team, which has **increased their productivity and given them a balance in their lives** as they prioritize their days to meet their needs.”

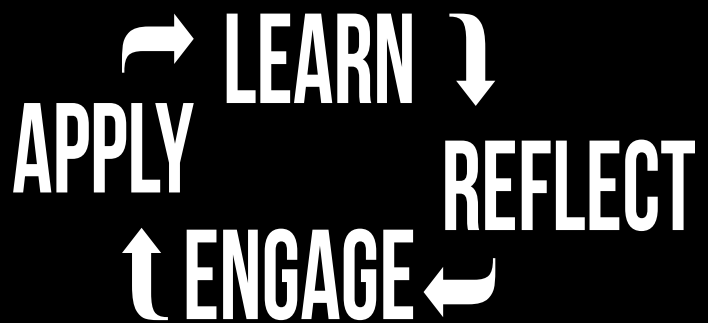

– **Kenny Blank**

“Training has been going well. There has been a lot of positive feedback from the participants as well as their respective bosses. We’ve seen a **pickup in production and change in attitude at each of the plants** that we have been working with. ... overall, positive.”
